Addressable

WiFi Enabled Hooter

Model : PTSNSBX501

Datasheet

http://www.pinetreesystems.com

Outline

PineTree offers WiFi-enabled hooters to provide essential alert and warning tones during an emergency.

When triggered by the panel its powerful sounder delivers an audible warning with the choice of three different selectable tones. Featuring a loud alarm, the device also includes battery backup and external output option. WiFi based Hooters offer you a perfect solution for your IP based notification system.

Technical Specification

Housing	: Mild Steel
Protocol	: UDP/TCP IP/HTTP
Audible Range	: 80-90 dB @ 1 meter (Internal Speaker)
Operating Voltage	: 12V-15V DC
Primary Supply	: 230V AC +/- 10%
Network Mode	: WiFi
Battery Backup	: Optional
Tone (Selectable)	: Alert, Emergency, Warning
External Relay	: Optional (5A @ 230V -AC)
External output	: Optional
Product Variants	: PTSNSBX501 PTSNSBX501-R / RE DWHTW501 PTSIPHTX501B
